

THE CAUCASIAN

PUBLISHED EVERY THURSDAY.
MARION BUTLER, Editor & Prop.
SUBSCRIPTION RATES.
ONE YEAR, \$1.00
SIX MONTHS, .50
[Entered at the Post Office at Goldsboro, N. C., as second-class mail matter.]

FOR NEW SUBSCRIBERS ONLY.
Our proposition to send THE CAUCASIAN till Jan. 1st, 1895, for fifty cents is good for new subscribers only. If all of our subscribers were to get the paper this long for 50 cents we would lose money. We make this liberal offer to induce those who have never taken the paper to do so now, also to induce our friends to get up clubs and pay the money themselves to get the paper into the hands of more people. Every old subscriber must renew at the regular price. We feel sure that you will all see the justice in this and the necessity for it. There is no money in publishing a paper like THE CAUCASIAN for \$1.00 a year. Let every subscriber whose time expires between now and the election renew for a year.

"Repeat the Sherman law and stop out flow of gold to Europe," was the cry last summer; "issue bonds and stop the outflow of gold" was the cry six months later, "another issue of bonds to stop the outflow of gold" is the cry that you now hear again.

Which teaches, that gold is this country's greatest curse or else our government is in the hands of thieves.

WHAT THE SENATE COSTS YOU.
We find the following in the editorial column of the Wilmington Star of May 30th:

"The Chicago Inter-Ocean figures out that it costs about \$4,000 a day to pay the salaries of the do-nothing Senators." This must be Chicago figuring. Eighty-eight Senators at \$16 a day will not figure out \$4,000 by a jugful. But as they are paid by the year Uncle Sam goes along and foots the bill whether they do nothing or something."

There now, the Star has slipped up again. If the editor of that paper had read THE CAUCASIAN for the last three weeks he would have seen that each Senator costs the people 26 times as much as his salary. When Congress voted to hire a clerk at \$100.00 a month for each member at your expense, the Star did not publish the fact, and probably did not know it till the editor read it in THE CAUCASIAN.

It's the instinct of self preservation that naves a rat to desert a sinking ship. It's a sense of self-respect and common decency that naves the New York Sun, New York Herald, New York Times, the Baltimore Sun, the Louisville Courier-Journal, the Chicago Herald, St. Louis Republic and Kansas City Times, New York World, Harpers Weekly, the Mungwump New York Post and Springfield (Mass.) Republican to oppose and denounce the Cleveland administration. The hope (not bounty and strong) is entertained that sooner or later, the Raleigh Observer will assert its manhood.

WHO IS "SOUND IN THE FAITH OF THE DEMOCRATIC PARTY."

The following is taken from the editorial columns of the Richmond Dispatch of last Saturday, one of the leading organs in the South of the gold bug party:

"We take it that everybody recognizes Mr. Cleveland as the head of the Democratic party. If he is not its head it has no head. So the members of the United States Senate who govern their action by the rules laid down by him must be recognized as sound in the faith of the Democratic party, and learners at the feet of our Gamaliel, the President of the United States."

Yes, Mr. Cleveland is the head of one wing of the gold party. He has his head under the plutocratic hat with John Sherman. This reminds us of the ostrich that hides its head leaving the remainder of its anatomy exposed to view. And the view which the people have of the bird is not very inviting. Yet the law is laid down that the Cleveland and Sherman cuckoos are the only ones who are "sound in the faith of the Democratic party." So be it.

"They begged me not to throw away my vote on Weaver. Yes I at last voted for Cleveland and now I wish I had thrown my vote away"—One of 50,000 voters in N. C.

RICHMOND HIGH SCHOOL.
We acknowledge receipt of invitation from Dr. J. L. Nicholson to the closing exercises of the Richmond High School, June 15th. Prof. T. T. James is Principal, and Miss Rosa Johnson is Assistant.

According to the Democracy of 1892 (see Chicago platform) if your stomach can stand its perusal manufacturers more "robbers" and the McKinley tariff, was "the culminating atrocity of the 19th century."

Capt. W. H. Kitchin.
Will speak at Stateville, June 8th, Concord June 9th. Capt. Kitchin and Col. Skinner will both speak.

A certain citizen of this State who is very intelligent, very successful in business, quite prominent in politics, who has aspired to hold high positions of trust and honor, even as high as the U. S. Senate, went to Greensboro at the Commencement exercises of the State Normal and Industrial School and heard Congressman Bryan's speech on money. Bryan said that he was in favor of the free coinage of both silver and gold at the ratio of 16 to 1. He denounced the proposition to leave the whole question to an international monetary conference as a gold bug scheme. He further said that laws placed upon the statute books by the money power had cost the country more than all the wars, famines, floods and storms for 100 years.

The aforesaid North Carolinian after hearing Bryan's speech said that up to then he had been opposed to the free and unlimited coinage of silver at the ratio of 16 to 1. He said that he had feared that it would be disastrous for this country to take such a step unless the other leading countries of the world could agree on an international standard. We believe that this man is thoroughly honest, yet the above shows how some of our very best and most prominent citizens are misinformed and prejudiced by the machine newspapers. Here was this man honest at heart, yet ready to work and vote against his own interests and the interests of his people. This man had gotten his ideas from the daily papers. This teaches that the most powerful agent to-day of the monopolies and all enemies of the people and good government is the syndicate that serves out press dispatches and the cuckoo daily press which simply echo the poisonous doctrines of the capitalistic anarchists.

The Chairman of the People's Party Ex. Com. of one of the counties of this State has written us a letter under date of May 24th saying that several times he has heard the report "that there was jealousy between the leaders of the People's party, and that Butler, Skinner and Thompson were already at daggers' points." There is not a word of truth in the above report. We don't know that the above named parties should be styled leaders of the People's party more than dozens of other men who have devoted their time and efforts to build up the reform movement. But of one thing we are certain and that is, the three gentlemen named are on the best and most confidential terms, both personally and politically, and any one of them are ready to do anything that will advance the cause of reform, even to the extent of giving up any personal ambition that any of them may have.

Is it not a little strange that some of the newspapers that had reporters at Greensboro, have not published Congressman Bryan's speech? They not only have not published the speech but some of them are growling because the speech was delivered. This leads us to believe that it is an honest argument in favor of bimetallism with no demagoguery or language of doubtful meaning in it.

Somewhat indorsing the course of the (Fayetteville) Observer from the Clinton meeting until now "congratulates that paper" on the fight which has been won and the greater victory of the future." We don't understand it. Can't bear any reference to the Simmons' business? Hardly, for the Observer to have had no official notice of Simmons' confirmation.

We are in receipt of the advance sheets of a new illustrated reform weekly, Vox Populi, published at St. Louis, Mo. It will make a specialty of well executed cartoons illustrating the reform principles.

In 1894 it would take forty Philadelphia lawyers to draw a distinction between McKinleyism and Clevelandism.

Produce that letter, Mr. Glenn, or come out like a man and acknowledge that you deceived the people.

Capt. Kitchin in his card has much to say against Northern Democrats. The South should recollect that Northern Democrats have stood by us when we needed friends; and although we may deplore any differences on financial questions; yet those differences should not lead us to forget that they stand with us on nearly every other subject, not their friendship and past services to us and their general patriotic course in regard to public affairs.—News-Observer-Chronicle May 18th.

THE CAUCASIAN readers can see from the tone of the above, what is to be the course of such Democratic papers in the South.

They will all soon begin to chime in and urge the honest yeomanry of this country to stand by the Northern Democrats, for keeping off the Force Bill, for their love for, "and loyalty" (?) to the Democracy of the South. The position of the N-O Chronicle is clearly shown in the above; it is with Plutocracy, yet pretends to be loyal to the masses.

The Augusta Chronicle has the following complimentary notice of Dr. Walter C. Murphy, so well known in Eastern Carolina.

"Dr. Walter C. It is because it is such a party, that it is now doing worse than nothing in Congress."

"AMERICA"
A Magnificent, Marvellous Spectacular Drama, Vividly Presenting the Leading Events in the History of America.

One of the grandest sights at Chicago during the World's Fair was a spectacular presentation of the chief events connected with the discovery of America and the leading points in the subsequent history of the United States given every night at Chicago's Mammoth Auditorium. The drama is now being reproduced in Washington city on a smaller scale. To give the readers of THE CAUCASIAN some idea of this brilliant spectacular drama, which is beyond description, we reproduce the following from the Washington Post:

"It is really amazing to watch the various changes of scenes, representing the people of mediaeval times in their picturesque and quaint costumes, changing almost in the twinkling of an eye to some bright picture, peopled by the children of fairland. Marches and processions, fetes and pageants, ballets and tableaux all follow one another in such quick succession that the spectator finds it difficult at times to keep pace with the grand moving array of events, as they pass before him on the mimic stage."

"At one time we are away back in the misty past, in the days of Isabella and Ferdinand, when Columbus first implored their majesties for the needed vessels with which he expected to discover the new world. The scene changes, and the spectator is on the Atlantic, with Columbus and his mariners on board the Santa Maria, the Nina, and the Pinta. Then follows San Salvador and the Indians. Once more we are back in Spain, in the old city of Barcelona, where the nobles and people throng the streets. Bells are ringing, trumpets sounding, music playing, and all the houses, as well as people, are decked in holiday attire. Amid this gay scene King Ferdinand and Queen Isabella, followed by their retinue, appear and take their place on the temporary throne erected for them in the public square to receive Columbus. Then follows a scene as gorgeous as any yet witnessed upon the stage of any theater. It is one grand moving picture of men and women clad in the costumes of the time and soldiers in their armor and mail. This welcome of Columbus is a splendidly lighted up by the magic wand of thousands of electric lights and you have a faint idea of some of the features of 'America.' But, as usual, the popular feature of the performance is athletic and not allegorical. This is supplied by the famous Schaffer family of acrobats, whose remarkable feats will not bear relating; they must be seen to be believed. The ballets of the merry-makers, of the arts and sciences, and of American inventions are also very fair, while the concluding procession of the States and Territories, to the accompaniment of patriotic airs, is very stirring and was warmly applauded."

Very Respectfully,
D. W. Bain, State Treasurer.

The language of the above letter is plain and cannot be misunderstood. It is evident that there is no paper currency that is liable for taxes when in possession of the owner on the first day of June in circulation in the United States, unless it be either State bank issue, private bank or foreign paper currency, neither has there been for over twenty years. Still our people are yearly gulled into paying tax on what is not taxable money they are fortunate enough to have, through ignorance of the law.

Publish this for the special benefit of our poor "hayseed" duffers and forward it along the line. Educate the masses and with it will come "equal right to all and special privileges to none."

A GREAT DAY AT WILSON.

Continued from first page.

COL. SKINNER SPEAKS.
Rev. J. T. B. Hoover then introduced Col. Harry Skinner, the silver-tongued advocate of reform. For two hours and a half we stood and listened to his fine, ornate and eloquent address as was ever heard from the hustings in Wilson county. The most striking part of his address was his statement that it was absolutely impossible for the interests of the South and West ever to get recognition through the Democratic party. His argument was powerful, convincing and conclusive.

The People's party has been steadily gaining ground in this county and to-day's meeting has added greatly to its strength. With proper work the county is safe.

CITIZEN.

SEND REPORTS OF MEETINGS AT ONCE

On Saturday, May 12th, the county convention of Lenoir met at Kingston and Col. Harry Skinner was present and delivered an eloquent address. But no one sent THE CAUCASIAN a single line about the meeting or the speech. We had written a prominent citizen of the county to send us a short report of the meeting not later than Monday, but we did not hear a word for last week's paper. At every such meeting in the future let it become one of the special business to send THE CAUCASIAN AT ONCE (don't wait a week) a report of the meeting. We want news items every week from every quarter of the State. Don't wait to write a long article. We want short articles. Write at once and make it to the point.

TWO VIEWS ON THE ALABAMA STRA-DAL.

"The Democrats of Alabama are straddlers of no mean order when they can cover with the same approval the chasm between the President of the United States and the senior Senator from Alabama."—Louisville Courier-Journal.

THE CAUCASIAN endorses this view.

"The idea in Alabama is evidently to throw the doors of the party church so wide open that there will be no excuse for any man to go astray. The Democratic party is a catholic institution anyhow. Whoever undertakes to hold it down it down to rigid lines and set rules mistakes its composition, its principles and its purposes."—Greenville (S. C.) News.

The Charlotte Observer endorses this view in its issue of May 29th. In short the party has no political convictions and can be made up of men of opposing political views just as well as of men of similar views and principles. It is because it is such a party, that it is now doing worse than nothing in Congress.

"Goodbye old party, goodbye."

A LETTER FROM DUBLIN.

Warsaw, N. C., May 18th, '94.

MR. EDITOR:—The time has come when the farmers of our country are thoroughly aroused upon the state of their condition, and I verily believe that they are upon the road that leads to triumph over their oppressors who have dared to throttle this government, destroy the prices of farm products and grind down the weak and disabled with the mighty heel of gold.

At first, the farmer's movement was ridiculed by the politicians to furnish reading matter for a certain class who take the dailies, and when the intelligent farmer received his weekly he was greeted with a lot of political rot that was both disgusting and insulting to a refined mind. But just witness the change that has taken place. A good many politicians have found out all of a sudden that it is to their interest to be very conservative and make amends to the people for what they have said and done in the past.

It was said at one time that the farmers could never do anything to better their condition on account of not being able to organize thoroughly. As heat applied to iron of all shapes and sizes causes it to melt and unite into one solid mass, so has a bitter experience driven them into organizations with permanent foundations that will live as long as the government exists. These organizations make it their special work to educate and enlighten their members upon all matters bearing upon their interests, and from this cause they have been able to achieve the victories in the past and upon it depends their future success.

Now as to the party in power at the present time it is evident to every fair-minded man that it is a dismal failure in every respect that tends toward the improvement of the working classes, and as the voters will stand no trifling, this party, whose leaders repeatedly refuse to redeem its pledges, will be asked to step down and out in 1896 by a disappointed and determined majority.

Their cry has always been "Give us a show, give us a show." They got the show, animals and all, and their performances at Washington bid fair to out-rival "Barum's biggest show on earth."

The argument has been made that the People's party having cast only one million or about one-twelfth of all the votes cast should not be entrusted with its demands because eleven-twelfths were against them. That is just as reasonable as to say that the Bible is an imaginary story from beginning to end on account the larger part of mankind knowing nothing about it. The trouble is Wall street has controlled the election machinery of the eleven-twelfths and by means of all the tricks known to the trade have compelled the representatives of the people to enact laws for the special benefit of capitalists, leaving out the interests of the working man entirely. The last census shows that the farmers own sixteen billions or one-fourth of the entire wealth of the nation, and this together with the fact that they are in the majority should entitle them to a reasonable amount of control of public affairs.

I defy any man to prove that silver was demonetized for any other purpose than for the benefit of the rich bond holders. If this country prospered under a double standard from its beginning until 1873, for what other purpose was the gold standard adopted if it wasn't for their interests?

Paper money issued by a government is a promise to pay on demand without interest a certain amount. A gold bond is a promise to pay on a certain date so much money of lawful interest at a given percent. Now look at the difference. If you own paper money or any other kind you pay a tax on it. If you own gold bonds you pay no tax, but remember only a favored few can own bonds, while every laboring man handles paper money and silver money every day, and by this means it circulates among all the people and does the greatest good. Now, all this being true, why did not the present Congress issue \$200,000,000 in paper money instead of forcing the government to issue the same amount of gold bonds? It is a self-evident fact that one can be redeemed as well as the other according to our view because we have faith in this government to pay its obligations of every kind.

Patiently, though, all through the years the laboring men have borne the burdens of class legislation, but silently and surely as the sun rises in the East there is a spirit of sentiment that is showing itself in more ways than one, gathering force at every turn, and the day is soon approaching when, not by means of the sword, but by the power of the ballot, the people will rise in their might and wrest the reins of government from those whose only object is to crush money out of the downtrodden masses. God speed the day!

WRONG—THE PARTY HAS CHANGED ITS FAITH.

The Concord Times says: "Ex-Congressman W. H. Kitchin, one of the most prominent Democrats in the eastern part of the State, has written a card to the Populist organ at Goldsboro, which will appear in its next issue, and in which it is understood that he announces a change of political faith."

Much surprise is expressed at his action, though it is well known that he was not at all in accord with the administration."

Wrong! Read Capt. Kitchin's card and you will see that he left the Democratic party, because it had its faith. He joins the People's party because it represents the principles of Thos. Jefferson and Andrew Jackson.

I Believe in Hood's Inherited Scrofula Cured

Read the Statement of a Popular Teacher

Mr. Geo. A. Zirkle, Mt. Hope, Tenn.

The statements in the testimonials below are familiar facts to the immediate friends of Mr. Geo. A. Zirkle, school teacher, of Mt. Hope, Tenn., very well known throughout the county, where he was born and has always lived. Read it.

"Dear Sir:—I believe in Hood's Sarsaparilla. I will tell you why. I have suffered from inherited scrofula of my childhood. When 37 years of age, my eyes became strangely affected. I could not read after sunset, and when I would close my eyes, I could not open them, but on whichever side I lay, that side I could open my eye. This condition continued about two years, and was succeeded by

An Intolerable Itching all over my body and limbs. I had to have my little boys take shoe brushes and scratch me. It was dreadful. It continued a month and was followed immediately by a tumor in the right side of my neck, as large as a small egg. I at once commenced taking physicians' prescriptions and continued till I lost hope. In the mean time the tumor changed its place to the inside of my neck, and was followed by a large tumor on my chest, and in six months another large tumor seated itself on the point of my collar bone, and in six months another half way back on the bone. Both of them soon began to discharge and continued to do so till I was nearly blind. I tried everything, including prescriptions. I was often so weak that

I Could Scarcely Walk and my mind was so confused that I could scarcely attend to my business (school teaching). I was utterly discouraged. And now my story draws to a close

Mr. Jonathan Smith, of Wake county, called at The Caucasian office on Friday of last week. He is 88 years old. He says that his first vote for President was for Andrew Jackson and he says that he is an Andrew Jackson Democrat still, but can't follow the corrupt machine that calls itself "the Democratic party" any longer. He subscribed for the Caucasian. He says that he is standing by the principles of Democracy which Vance said were immortal. He says that he has concluded that there is more Democracy in the People's party than anywhere else so he will vote that ticket next time.

On last Wednesday night the Rev. Mr. Farries was duly installed as pastor of the Presbyterian church, of this city. Dr. Morton, Reva. C. G. Wardell, T. H. Isler, and P. M. McIvry were present and took part in the ceremonies.

RESOLUTIONS OF RESPECT.
The following resolutions were adopted at the last meeting of Edgecombe County Alliance:
Whereas, it has pleased almighty God in his infinite wisdom, to remove from the scene of life's activities our worthy and beloved brothers and co-workers, W. David Stokes, and W. Lafayette Edwards, therefore be it resolved, that we, the members of Edgecombe County Alliance, do most sincerely lament the untimely demise of our noble brothers, who were so thoroughly imbued with the cause of reform, and who worked with such untiring zeal and fidelity in furtherance of our glorious principles. Our order has sustained an irreparable loss in the death of brother Stokes and Edwards, and the cause of humanity is deprived of earnest, sincere and devoted workers and advocates. They are as true as steel, and unflinching in their love and devotion to the principles of the Alliance.

Resolved, that a copy of these resolutions, with remarks, be spread upon the minutes, also sent to THE CAUCASIAN and Progressive Farmer, with the request that they be published.

HEINOUS IN THE EXTREME.

THE ATTEMPTED MURDER OF MR. HINTON PIGFORD—ASSAILED WHILE ASLEEP.
An Unknown Intruder Executing a Well Planned Scheme.

The startling news of the attempted murder of Mr. Hinton Pigford was brought to town last Thursday night about eleven o'clock, being about an hour after the crime had been committed. His parents, together with Drs. Lee and Stephens and others hastened to the scene to find him in an unconscious condition. The particulars accessible are as follows: Messrs. Hinton and Thomas Pigford are cultivating a farm about four miles to the north of Clinton. They sleep and take their meals in a small building on the premises, as the farm is too far out for them to go and come from their father's during the busy season. As usual, they retired at an early hour last Thursday night. A chair was placed against the door to keep it from blowing open, and both young men fell to sleep. About ten o'clock Mr. Thomas was aroused from his sleep by the distressing calls coming from his brother, "Tommy, Tommy; help or I die."

On making a light it was seen that the bed clothes were saturated with blood, and that it was still flowing from a bad cut on his forehead. Convulsions followed, and as soon as his brother could leave him for a moment he ran a short distance to where two colored boys were sleeping and sent one to Clinton and the other to a neighbor's. Doctors Lee and Stephens examined and dressed the wound, which was about the width of a hatchet and reached to the skull. All who saw the wound thought it must have been made with a hatchet.

The perpetrator of the crime had entered by moving the chair from the door, and went away leaving the door open. What could have prompted any one to such inhuman extremes is a mystery yet to be solved. Mr. Pigford was not known to bear great variance with any one, and for that reason the mysteriousness of the affair is intensified. He was brought to his father's home on College street Friday morning, but it was not until late in the afternoon that he regained consciousness. His condition is doubtful but the best results are hoped for.

LATER—Since writing the above account of the onslaught made on Mr. Hinton Pigford, we are glad to know that his condition has taken a change for the better. He is resting very well to-day (Monday) and he is thought to be practically out of danger.—Clinton Caucasian.

We are glad to see that Bro. W. S. Morgan has taken editorial control of the Arkansas Farmer. The last issue comes to us very much improved.

TEMPERANCE CONGRESS.
An International Meeting to be held in the State of New York.
[Communicated.]
Perhaps the greatest gathering in the history of the Temperance Reformation will be found in University Temple, Prohibition Park, Staten Island, New York, June 3rd and 5th inclusive.

A call for the convention was signed by thousands of the Temperance workers in all the different orders in the various States and Territories of the United States and Canada. The object of the Congress is first,
To honor general Neal Dow, who is about to celebrate his 90th birthday. Second, to review the field of battle; compare conflicting views in order to unite upon a common ground of defense against the enemies of the United States and the Dominion of Canada; to take such steps as will be necessary to place the teaching of Temperance hygiene in the public schools throughout the country; to seek to enlist far more the pulp and press in the advocacy of total abstinence; to place the educative power of law against the saloon; to take whatever other action against the liquor traffic as may be deemed wise.

The Congress is to be strictly a representative body. Among the prominent speakers we note the names of Maj. General O. O. Howard, President Nat. Temperance Society; D. H. Mann, Rt. Worthy Grand Chief Templar of the World; James Buckley, editor New York Christian Advocate; Chas. H. Parkhurst, Pres. Society for Prevention of Crime; Wm. T. Waddell, Treas. Standard Oil Co.; Sam'l Dickey, chairman Nat. Com. of the Prohibition Party; Hon. John P. St. John of Kansas; Joseph Cook.

The committee on Federation of all Temperance organizations of the world is composed of: I. K. Funk, D. D., of New York; Arthur C. Pierou, D. D., Philadelphia; Bishop John H. Vincent, of Chattanooga; Mrs. E. J. Gray, of Ohio; Gen. Thomas B. James, of New York; Samuel W. Pickard, of Chicago; J. H. Southgate, of North Carolina; Walter Payne, of Ohio; Louis Banks, D. D., of Brooklyn.

The names of the delegates from the Prohibition Party in North Carolina are as follows: B. B. Lake, Bryson City, N. C.; Hugh W. Dixon, Snow Camp, Chatham County, N. C.; Dr. S. J. Montague, Winston, N. C.; W. M. White, Gastonia, N. C.; F. S. Blair, Guilford College, N. C.; Edwin Shaver, Salisbury, N. C.; Rev. T. J. Ogburn, Henderson, N. C.; A. R. Edgerton, Fremont, N. C.; J. E. Ray, Asheville, N. C.; Rev. Jerry Holt, Burlington, N. C.

The order of Good Templars, Sons of Temperance, Woman's Christian Temperance Union, will also be represented from North Carolina. This will be an historical gathering and will mark the date of a new era in the Temperance Crusade.

DEAR SIRS—I would like to add my testimony to the almost miraculous effect of P. P. P. P. she immediately began to improve and is now in as good health as ever in her life. You can refer to me at any time as to the effect of P. P. P. in the foregoing case.

Yours truly,
